2. Kazakhstan president came to Tallinn, brief interaction.

3. The German chancellor and the Estonian president have also participated.

Mentioned incidents are the work of a biotechnology right wing group that is now trying to erase traces and destroy evidence. In a few years, through systematic takeover of government functions, their power has increased at the expense of people's civil rights. There are no guarantees when the gangsters are securing money, property, stability and police protection. This website does not violate the law, it denounces outrageous insolence and presents cases of embezzlement and larceny in the name of security.

Real-time severe attacks to the brain (and other organs) and audio torture have impeded the correction of mistakes on this web page and may have even caused some. Please send your suggestions to [web@artimeconsulting.com](mailto:web@artimeconsulting.com)

Do not expect to establish unofficial contacts with any federal agency, company or organization (civilian or military) through Artime Consulting.
